

The Midwest Wine Guy- Real Honest Wine Reviews and Education

2007 Truchard Vineyards Cabernet Sauvignon

While it is unusual to find Cabernet Sauvignon grown in the Carneros region, Truchard does it very well. This dark plum colored Cabernet has a different flavor combination than many, and the mixture of plum, green pepper, vanilla and black currants intermingle very well.

Truchard blends some Cabernet Franc with this wine, which softens it up and brings a bouquet and flavorful palate of tobacco, violet and raspberry towards the mid to back palate. Soft supple tannins insure a very enjoyable finish. Drink now and easily for the next 15 years
